Like a smart phone app, a "Brain App" is a tool for their brain. These "apps" let them perform important processes using cognitive + emotional data to achieve results. These learned capabilities help people be effective at work and in life.

Your Top Brain Talents in Order

Proactivity

With this App running, the brain is committed to taking action and achieving results without the need for external pressure or triggers.

Risk Tolerance

A brain running this app can handle change and ambiguity to take realistic chances.

Imagination

With this App, brains are able to look beyond what's visible, blending thinking and feeling to see potential and make new things come true.

Adaptability

The App helps brains sort through multiple perspectives, evaluating, and shifting gears and making changes as needed.

Modeling

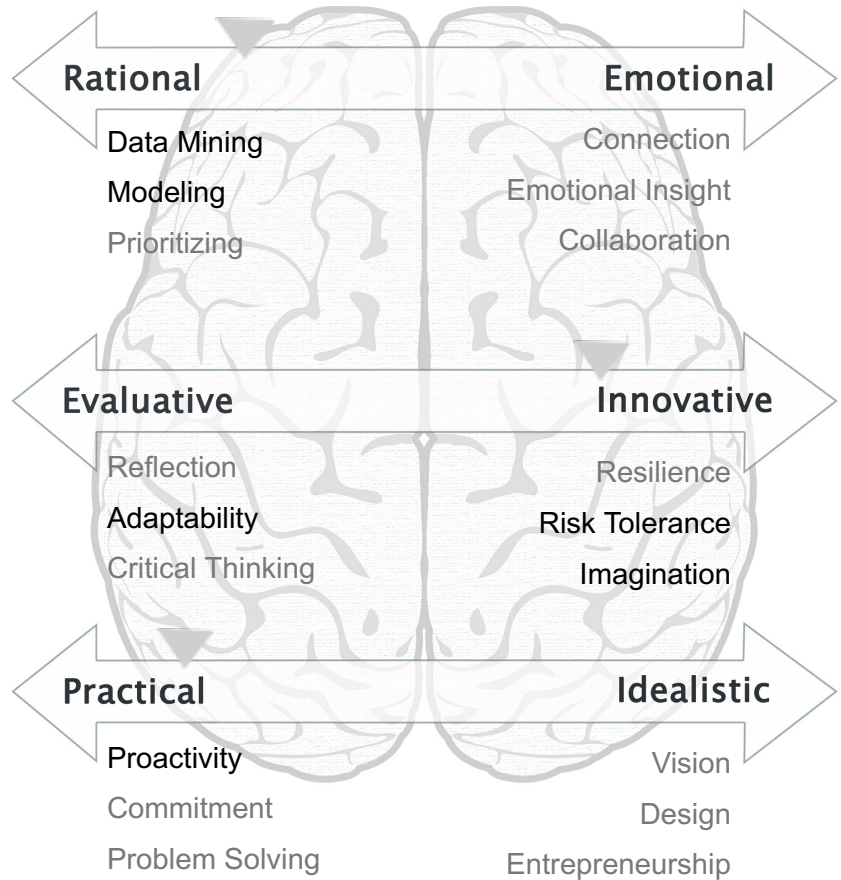

This App allows brains to map out possible paths from the available data.

Data Mining

Brains with this App can observe accurately, noticing details, see patterns and filter out the inessential.
